

Frascold[®]

CX

Frascold semi-hermetic compact screw compressors

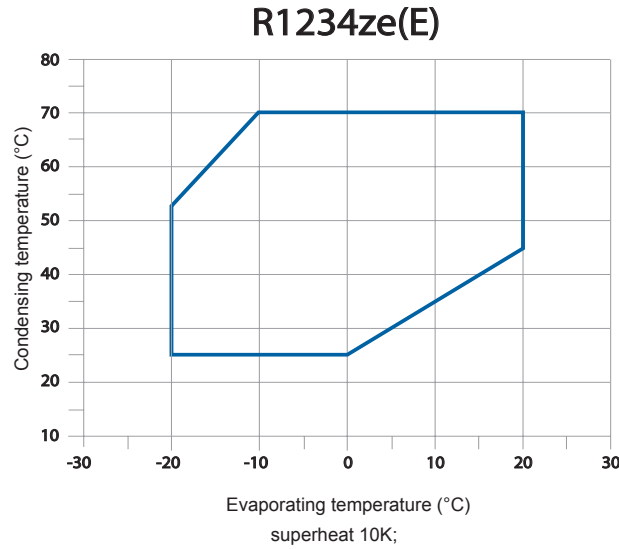

for refrigeration, air conditioning, heat pump, process cooling

Frascold CX compressor series has been released for the use with HFO 1234ze(E) and HFO 1234yf.

HFO 1234ze(E) series

- On field test with several applications.
- Operating limits:

- Available models:

Motor 1

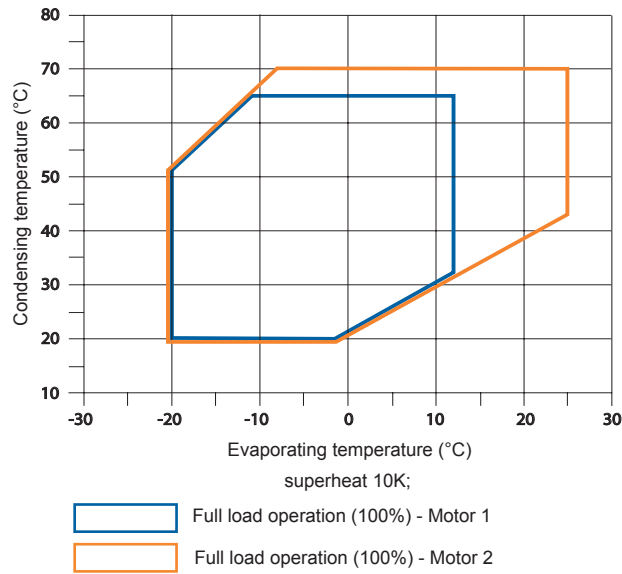

2°C evaporating temperature; 50°C condensing temperature; 10K superheat; 5K liquid subcooling; tentative data.

* Available from Q1 2015

HFO 1234yf series

- On field test with several applications.
- Operating limits:

R1234yf

- Available models:

2°C evaporating temperature; 50°C condensing temperature; 10K superheat; 5K liquid subcooling; tentative data.

* Available from Q1 2015

FRASCOLD®

A company with more than 75 years of experience manufacturing compressors for refrigeration and air conditioning industries. The wide experience gained over the years provides cutting-edge products and solutions, in line with the latest demands of the market. Our product range has available a wide range of options to meet the specific application and market needs worldwide, always paying attention to the energy efficiency and in full respect of the environment. All quality and construction directives indicated by the relevant authorities are strictly followed.
